Experience

Freelance / Web Developer

MAY 2016 - PRESENT, REMOTE

Handle various projects in different stages of development using tools like WordPress, React, and Laravel. Find and resolve errors within existing projects. Manage and complete projects within budget and timeline. Maintain clear communication while working remotely with clients.

Design On Tap / Web Developer

OCTOBER 2018 - PRESENT, REMOTE

Work on multiple projects simultaneously while meeting client deadlines. Create and implement code standards for current and future projects. Develop front and back end for WordPress sites using tools such as PHP, Gulp, Sass, Advanced Custom Fields, and more. Integrate WordPress as a headless CMS with Gatsby and GraphQL.

The HON Company / Programmer Analyst

OCTOBER 2018 - OCTOBER 2019, MUSCATINE, IA

Maintain current web properties and create requested features. Create and modify Drupal modules, templates, and themes. Manage time and communicate effectively to ensure efficiency while working remotely. Evaluate code to ensure that it is valid, is properly structured, meets industry standards, and is compatible with all browsers and devices.
