Experience

Freelance / Web Developer

MAY 2016 - PRESENT, MILAN, IL

Handle various projects in different stages of development using tools like WordPress, React, and Laravel. Find and resolve errors within existing projects. Manage and complete projects within budget and timeline. Maintain clear communication while working remotely with clients.

The HON Company / Programmer Analyst

OCTOBER 2018 - PRESENT, MUSCATINE, IA

Maintain current web properties and create requested features. Create and modify Drupal modules, templates, and themes. Manage time and communication effectively to ensure efficiency while working remotely. Evaluate code to ensure that it is valid, is properly structured, meets industry standards, and is compatible with all browsers and devices.

Town News / Web Designer

DECEMBER 2016 - OCTOBER 2018, MOLINE, IL

Design and maintain websites using scripting languages such as JavaScript, jQuery, and UTL with the Blox content management system. Identify problems uncovered by testing or customer feedback and correct problems or refer problems to appropriate personnel for corrections. Communicate with team effectively while working remotely or in office.
